TIMING

The timing will be done through the CHIP system, so its use is MANDATORY. There will be controls at various points, in addition to the finish line, and all runners must pass through these checkpoints.

Runners who are not registered or run without a bib number will not be admitted to the race, they will be prevented from having access to the race in defense of the rights of those registered by regulation.

Bicycle companions are allowed, keeping the corresponding distance and security measures. There will be delimited areas for the exclusion of bicycles, from the organization it will be indicated in-situ to the bicycle companions where they will wait until the passage of the runners.

For the safety of all participants, it is forbidden to run accompanied by minors or with a pet.

START CORRALS

The distribution, the schedules and the organization of the START will be carried out according to the distances to be covered.

WARDROBE

In the start and finish area, a wardrobe and rest area will be set up.

DROP BAGS (only 50, 100, 150 y 200 miles)

Each runner may deliver, when picking up the bib number, up to 2 drop bags, into them they can put whatever things they consider they may need in El Horcajo (Miles 25, 75, 125 and 175) and in San Pedro (Miles 50, 100, 150 and 200).

Drop bags must be clearly and permanently labelled with the bib number and the place where the organization will deposit them: **El Horcajo** or **San Pedro**.

The Organization will transport the "drop bag" labelled for this purpose to El Horcajo, so that the runner can collect the things he/she needs from the bag and then deposit the remaining things in it. The bag must be closed without anything sticking out to be sent back to San Pedro once the race is finished.

The Organization will leave the "drop bag" labelled for this purpose in San Pedro, where it will remain during the race so that the runner can collect the things they need from the bag and then deposit the remaining things in it. The bag must be closed without anything sticking out until it is collected at the end of the race.

Important: The runners who retire and want to recover their "drop bags " minimizing the wait will have to go to the El Horcajo checkpoint or wait for the final delivery in San Pedro, in an authorized tent, at the end of the event.

The Organization will not check that the bags are properly closed or that things are inside, neither at the time of delivery in San Pedro or El Horcajo. Therefore, the Organization will not attend to claims for loss or breakage of the things contained in the bags.

For this reason, it is recommended that the things inside are not fragile or valuable and that the runner makes sure that the bag cannot be opened during transport, reinforcing its closure (for example, by means of a string or zip ties).

LOST AND FORGOTTEN LIFE BAGS: Life bags must be collected in San Pedro by the runner no later than 17:00 on April 17.

If not, it can be collected during the next 15 days at the San Pedro town hall. After this period, the bag will no longer be delivered.
